St George’s University Hospitals NHS Foundation Trust
A Practical Guide to Advancing
IV Therapy in Paediatrics & Child Health
Including improving quality and safety through effective IV Therapy at home (OPAT)

Thursday 10 November 2016 Hallam Conference Centre, London

This conference looks at improving the quality and safety of IV therapy in children and young people, both in hospital and through effective IV Therapy at home (p-OPAT). The conference will look at developments and progress against the December 2015 Guideline ‘Intravenous fluid therapy in children and young people in hospital’, developing and assessing competence in IV therapy for children, ensuring good practice in paediatric outpatient parenteral antibiotic therapy and reducing and managing complications in IV Therapy in children and young people.

“Maintaining correct levels of fluids and electrolytes is essential in helping the body to function properly. If a child is admitted to hospital, they may not be well enough able to drink or eat, or they may be having a procedure that prevents them from doing so. In such cases, they may need intravenous (IV) therapy to maintain fluid balance. However, surveys suggest that many staff who prescribe IV fluids do not know the needs of individual patients. There is wide variation in the charts used to prescribe fluids and to record fluid and electrolyte status, and a lack of training in IV fluid management could lead to incorrect prescribing. The consequences of poor IV fluid management can be serious, as they can lead to too or little or too much fluid being given, which could in turn lead to complications such as oedema and possible heart failure.” NICE December 2015

“These new recommendations should result in reduced complications and better health for children and young people receiving IV fluids.” Dr Peter Crean, Chair, Guideline Development Group, IV Therapy in Children and Young People in Hospital, NICE

“There is compelling evidence to support the rationale for managing children on intravenous antimicrobial therapy at home whenever possible, including parent and patient satisfaction, psychological well-being, return to school/ employment, reductions in healthcare-associated infection and cost savings.” Good practice recommendations for paediatric outpatient parenteral antibiotic therapy (p-OPAT) in the UK: a consensus statement
A Practical Guide to Advancing IV Therapy in Paediatrics & Child Health

Including improving quality and safety through effective IV Therapy at home (OPAT)

Thursday 10 November 2016 Hallam Conference Centre, London

10.00 Chairman’s Welcome & Introduction

Jackie Nicholson
Nurse Consultant Vascular Access, Interim Head of Nursing (Diagnostics)
St George’s University Hospitals NHS Foundation Trust

10.20 Monitoring progress against the NICE Guideline for IV Therapy in Children and Young People in Hospital

Dr Cheenton Singh
Consultant Paediatrician & Neonatologist
North Middlesex University Hospital NHS Trust
Member Guideline Development Group, IV Therapy in Children and Young People in Hospital, NICE

- ensuring a standardised approach to assessing fluid and electrolyte status and the prescription of intravenous fluid therapy for children and young people across the NHS
- ensuring the right choice, volume and timing of intravenous fluids
- monitoring progress against the NICE Guideline
- a year on: what has changed?

11.00 Ensuring appropriate use of IV therapy in children

Sara Melville
Lead Nurse for Vascular Access and IV therapy
Alder Hey Children’s NHS Foundation Trust

- principles and protocols for intravenous fluid therapy
- ensuring the right choice, volume and timing of intravenous fluids
- managing and reducing complications

11.30 Question and answers, followed by tea & coffee at 11.40

12.00 EXTENDED SESSION: Developing and assessing competence in IV therapy for children

Anne Ho
Specialist Nurse - Intravenous Therapy Team
Infection Cancer & Immunity
Great Ormond Street Hospital NHS Foundation Trust

- training and competency assessment
- improving the quality of training and education
- working with families to choose the right therapy: the advantages and disadvantages of CVA ports versus Hickman lines and peripherally inserted central catheters (PICCs)
- the role of risk assessments in IV therapy
- tips and advice for safe and effective IV Therapy in practice
- communicating effectively with patients
- our approach

13.00 Questions & answers, followed by lunch at 13.10

FOCUS: Setting up and delivering effective p-OPAT Services

14.00 OPAT Case Study: Setting up and running p-OPAT

Joanna Newton
p-OPAT Clinical Nurse Specialist
Guys and St Thomas’ NHS Foundation Trust

- setting up and running paediatric OPAT
- critical success factors in setting up and running an effective service
- examples and case studies
- our OPAT experience and the impact

14.30 EXTENDED SESSION: Ensuring good practice in paediatric outpatient parenteral antibiotic therapy (p-OPAT)

Stéphane Paulus
Consultant in Infectious Diseases Alder Hey Children’s NHS Foundation Trust
Honorary Senior Lecturer Institute of Infection & Global Health, University of Liverpool
Secretary of the British Paediatric Allergy Immunology and Infection Group

- recommendations for good practice
- extending the use of p-OPAT
- what patients are suitable for the p-OPAT service?
- developing the competence and skills of the OPAT team
- providing patient education and advice
- potential risks and strategies for reducing those risks
- the UK first p-OPAT service: learning from our experience

15.15 Questions and answers, followed by tea & coffee at 15.25

15.45 EXTENDED SESSION:
IV Therapy in Children: Legal Update and Root Cause Analysis

Simon Robinson
Barrister Accredited Mediator
Five Paper Chambers

- legal update
- carrying out a root cause analysis of an IV Therapy incident
- learning from investigations and ensuring change occurs

16.45 Moving forward: closing address

Jackie Nicholson
Nurse Consultant Vascular Access, Interim Head of Nursing (Diagnostics) St George’s University Hospitals NHS Foundation Trust

16.50 Questions and Answers followed by Close at 17.00
Conference Registration

IV Therapy in Paediatrics & Child Health
Thursday 10 November 2016 Hallam Conference Centre, London

How to book
Book online via credit card and receive a 10% discount*
www.healthcareconferencesuk.co.uk
Fax the booking form to 0208 181 6491
Post this form to Healthcare Conferences UK
8 Wilson Drive, Ottershaw, Surrey, KT16 0NT
