

International Practitioner Health Summit 2022 The Wounded Healer

Hope and Healing beyond Covid-19 Conference of NHS Practitioner Health

> Thursday 17th - Friday 18th March 2022 Hybrid Conference - London

Speakers Include:

- **Professor Chris Whitty,** Chief Medical Officer for England
- **Ruth May** Chief Nursing Officer for England
- Dr Rachel Clarke Palliative Care Doctor and Author
- Dame Clare Gerada Medical Director NHS
 Practitioner Health Programme
- Dr Rachel Gibbons Consultant Psychiatrist, Chair Patient Safety Group, Royal College Of Psychiatrists
- Professor Neil Greenberg Professor of Defence Mental Health King's College London
- **Dr Yumiko Kadota** Former Plastic Surgery Registrar & Author of Emotional Female
- Dr Adam Kay Writer, Comedian & Former Junior Doctor

Onsite fee includes a copy of 'Beneath the White Coat' by Dr Clare Gerada sponsored by The MDU

International Practitioner Health Summit 2022

The Wounded Healer Hope and Healing beyond Covid-19 Conference of NHS Practitioner Health

Thursday 17th - Friday 18th March 2022 Hybrid Conference - London

The NHS Practitioner Health Programme in association with Healthcare Conferences UK are pleased to announce the International Practitioner Health Summit 2022, which will focus on Hope and Healing beyond Covid-19.

Open to all healthcare professionals, this hybrid CPD certified conference will welcome delegates from across the world attending face to face and remotely. Again, as with the 1st award winning conference our speaker line up is exceptional. The medical authors, Rachel Clarke, Adam Kay, and Yumiko Kadota will be talking about their Covid experiences. England's Chief Nursing Officer will also share her experiences and those of her profession who have worked so hard on our behalf during the pandemic. Breakout sessions for all delegates will cover topics including: International treatment models and responses, the epidemiology of distress, mental health outcomes for distressed doctors, and happy workplaces for trainees. For those who attend face to face you will be able to access an extended choice of wonderful workshops and plenty of spaces to come together.

"The conference will help heal the wounds of the last two extraordinary years and help us understand what we have collectively been through and prepare us for the future. Hope is in the air." Dame Clare Gerada, Medical Director, NHS Practitioner Health Programme

This conference will enable you to:

- Network with colleagues who are working to improve the care of mentally ill health professionals
- Learn from outstanding practice in care of staff with mental illness
- Reflect on national developments and learning
- Improve the way you think of your own health and well being
- Develop your skills in techniques to stay well
- Understand how you can improve your mental well being
- Identify key strategies for keeping out of regulatory issues
- Ensure you are up to date with the latest research in physician health
- Self assess and reflect on your own practice
- Gain CPD accreditation points contributing to professional development and revalidation evidence

Don't miss this important opportunity to reflect on how you can look after your own mental health and wellbeing, and support your staff and colleagues; celebrating successes and learning from failures.

Onsite delegates will receive a free copy of 'Beneath the White Coat' by Dr Clare Gerada sponsored by The MDU.

The Wounded Healer Play

Onsite delgates will also get the opportunity to attend a play, The Wounded Healer. It's not just Doctors who are in distress but particularly during the pandemic, all of those engaged in professional healthcare have endured the sharp end of professional and personal pressure. Where can they go for emotional support? A new play, from Doctors in Distress by the award-winning writer Brian Daniels and inspired by Clare Gerada's book 'Beneath the White Coat' will be an opportunity to explore through a new piece of drama the personal stories and journeys of a group of healthcare professionals as they struggle to keep their personal and professional lives on course.

HEALTHCARE CONFERENCES UK

NHS Practitioner Health

Day 1 Onsite Programme Looking back: Covid-19 and the health of health professionals

08.00	MDU Optional Breakfast Meeting: Supporting doctors in	medico-legal difficulty
	Dr Caroline Fryar Head of medico-legal advisory services, The Medical Defe	ence Union
09.30	D Introduction & Welcome	
	Dame Clare Gerada Medical Director, NHS Practitioner Health Programme	
09.40	0 Morning Session Chair's Introduction	
	Anna Mary Soubry Trustee Doctors In Distress, Former MP, Govt Minister,	Criminal barrister, TV presenter & reporter
09.45	5 Government Update	
	Professor Chris Whitty	
	Chief Medical Officer, Department of Health & Social Care	
09.55	5 Speaking Pandemic Truth to Power	
		ne human need to give voice to what we witness - and, crucially, for this be heard
		ne cost to healthcare practitioners of their lived experiences of pandemic
		nedicine being minimised, dismissed, or ignored
		ne therapeutic benefits of sharing our own stories with others, to help s come to terms with the burdens and trauma of caring for patients in
		andemic conditions
10.15	5 Nurse Government Update	
	Ruth May	

Chief Nursing Officer for England

10.35 Panel Session: What could we do differently in future?

10.50 Questions and Answers

11.10 Tea and Coffee Break and Exhibition

11.30 Choice of breakout sessions and workshops

Stream A International treatment models & responses	Stream B Experience and healing post Covid-19	Stream C Epidemiology of distress	Stream D Addiction	Stream E Reflective practice	Workshop Learning from doctors with Long Covid
--	---	---	-----------------------	---------------------------------	---

13.00 Lunch Break and Exhibition

13.00 The Singing Healer practice in the auditorium

14.00 Choice of breakout sessions and workshops

1 07	Stream B Experience and In aling post Covid-19 m	Stream C novative treatment nodels & responses	Stream D Neurodiversity	Stream E Impact of Covid-19 on care workers	Workshop Supporting through video
------	--	--	----------------------------	---	---

15.30 Tea and Coffee Break and Exhibition

16.00 Chair's Introduction - Closing Session theme: Distress in healers and coping with distress

Dr Cat Chatfield Head of Education and Co-Lead for Wellbeing, The BMJ

16.05 "My fatal mistake" Guilt, blame and the role of the clinician in the death of a patient by suicide

Dr Rachel Gibbons

Consultant Psychiatrist, Chair, Patient Safety Group Royal College of Psychiatrists, Psychoanalyst, Group Analyst

- the nature or aetiology of suicide
- the 'Truth' about suicide. What leads someone to take their own life? Can it be prevented?
- understanding the profound effect the suicide of a patient on the clinician working with them

16.25 Suicide in medical doctors and suicide preventive strategies

Professor Danuta Wasserberg

Professor of Psychiatry and Suicidology; Head and Founder, National Centre for Suicide Research and Prevention of Mental III-Health (NASP) Karolinska Institute, Stockholm, Sweden Director, WHO Collaborating Centre for Research, Methods Development and Training in Suicide Prevention; and President-Elect, The World Psychiatric Association (WPA)

16.45 Panel Session, Questions and Answers

17.00 Experiential Learning and Drinks Reception

17.05 Identifying small joys in your life at home and at work (finishes at 17.40)

Dr Anna Dias

GP trainer and Family Therapist, Churchview Surgery, Plymouth Optional workshop, please pre book as it can only accommodate a maximum of 20 people

- an overwiew of studies on suicide in physicians; gender, speciality and age
- suicide and Covid-19 pandemic
- strategies and evidence- based methods in suicide prevention

- how to notice the small things that bring you joy as an individual
- how to share those joys with your colleagues and encourage them to share ideas with you and each other
- by doing this sharing begin to see how the connections between people grow and encourage these by building the team to nurture them

17.30 Play: The Wounded Healer

Doors open at 17.30

Play starts at 17.45

It's not just Doctors who are in distress but particularly during the pandemic, all of those engaged in professional healthcare have endured the sharp end of professional and personal pressure. Where can they go for emotional support? A new play, from Doctors in Distress by the award-winning writer Brian Daniels and inspired by Clare Gerada's book 'Beneath the White Coat' will be an opportunity to explore through a new piece of drama the personal stories and journeys of a group of healthcare professionals as they struggle to keep their personal and professional lives on course. Delegates can book to attend via the Eventbrite link that will be sent to you on confirmation of your conference place.

Fully

Booked

Art Exhibition

Creativity and improved wellbeing are intrinsically connected. At Doctors in Distress, we wanted to provide the opportunity for healthcare workers to explore their creative side and in this instance, engage with photography. We are delighted to partner with the Royal Photographic Society in displaying our photography exhibition called 'Peace in the Pandemic'. Please do visit the Prince's Gate room where you will see photos taken by healthcare workers from across the UK showing where they found their peace in the pandemic.

Dr Adam Kay

Writer, Comedian & Former Junior Doctor

Day 1 - 11.30 - 13.00 Stream A International treatment models & responses

Chair

Dr Kate MT (Mtandabari) Clinician, NHS Practitioner Health

	NHS Wales workforce Dr Thomas Kitchen Deputy Director HHP Wales Health for Health Professionals (HHP) Wales	 responding to Covid-19, HHP Wales expand its services to offer confidentia mental health & wellbeing support to all staff employed by NHS Wales in the year since expansion 770 people accessed the service - 36% were Doctors, 75% were signposted to virtual CBT we'd like to share some of the key lessons learnt over the year
L1.50	Monitoring the effects on mental health of doctors	in Spain along the pandemics to improve the Galatea
	Foundation portfolio of services	
	Anna Mitjans Project Manager Galatea Foundation and Barcelona Medical Council	 monitoring the effects on mental health of healthcare professionals along the pandemics: second questionnaire September 2021 new questions about vaccination, team working, PTS, new Covid-19 strains results of the second questionnaire will be used to offer better treatments and support (individual and collective), as well as to advise policy makers to fulfil doctors' needs in the pandemic environment
L2.10	Caring programmes across Europe and the regulato	ry role in impaired physicians
	Dr Gustavo Tolchinsky Secretary, the Barcelona Medical Council; and Coordinator, PAIMM (Catalan Caring Programme for Physicians)	 what is the current situation of caring programmes across Europe what are the different models offering : pros and cons what does an impaired physician need in terms of caring programme and in terms of regulation

Day 1 - 14.00 - 15.30 Stream A Epidemiology of distress

Chair

Dr Eleanor Cole Lead Clinician – Psychiatrist, NHS Practitioner Health

14.00 Psychiatrists harnessing lived experiences

Simona Karbouniaris Researcher and Lecturer, Utrecht University of Applied Sciences Amsterdam Medical Centre

and Antoinet Oostindiër Psychiatrist and Director, AerreA

- mental health professionals with lived experiences coming out
- MH professionals trained to harness experiential knowledge
- examples (how to): peer consultation, training, culture/climate change

14.20 Factors affecting the UK junior doctor workforce retention crisis: an integrative review

Dr Florence Lock

Public Health Registrar South West Public Health Training Programme and University of Exeter

- background information on junior doctor retention issues and research to date
- overview of methods for integrative review and strengths and limitations of research
- summary of findings and recommendations for solutions based on findings

14.40 Medical students' mental health: Prevalence, help-seeking & support before & during the Covid-19 pandemic

Asta Medisauskaite Senior Research Fellow University College London

- this presentation will discuss changes in medical students' mental health, support and help-seeking from before the pandemic to during
- the prevalence of mental health issues was high before the pandemic and has remained high since
- students were less likely to seek help for their mental health during the pandemic compared to before, but those who did were equally satisfied with the help provided

Day 1 - 11.30 - 13.00 Stream B **Experience and healing post Covid-19**

	Chair	
	Dr Claire Gallagher GP NHS Practitioner Health	
1.30	Junior doctors' challenges and coping strate	gies for working during the Covid-19 pandemic: A qualitative study
	Ruth Riley Lecturer, Applied Health Research University of Birmingham	 junior doctors working during the Covid-19 pandemic described various challenges, including exposure to death and suffering, uncertainty and feeling unsupported in the new ways of working coping strategies were both personal (expressing emotion, seeking support) and organisational (flexibility, practical support) positive factors arising from the pandemic included new ways of working, particularly consistent teams, the feeling of additional camaraderie & support
1.50	"Oxygen Masks on Ourselves First" at the D	octors' Mess
	Dr Rebecca Viney	we will discuss with evidence
	Chair/Trustee	 how celebrating diversity and inclusivity helps improve the wellbeing of all
	"Caring for Carers" Charity	healthcare workers. When we thive, everyone benefits. Our patients deserve
		it, we deserve it
		 the power of small confidential groups to connect and share stories during unsettled times energises us and safeguards our mental health
		 how empowering and inspiring conversations give us hope and help
		immunise us against burnout. Optimal healthcare provision depends on it
12.10	Why has the mental health of doctors decli	ned within the Covid-19 pandemic? An exploration using a social
	contract approach focusing on the relations	
	Parisha Blaggan	the expectation for doctors to compromise their physical health has been
	Intercalated Student, Imperial College London	well explored, using the concept of a social contract of medicine, whilst
	Medical Student, University of Birmingham	mental well-being has not
		 the relationship between doctors and themselves needs to be considered when evaluating their vulnerability to mental ill health. The use of medical
		humanities is advantageous to explore this
		 sense of duty, identity and stigma within medicine are contributing factors
		to the decline of clinicians' mental health in the Covid-19 pandemic
12.30	Questions and Discussion	
12.50		
12.30	Day 1 - 14	00 - 15 30 Stream B
12.30	-	00 - 15.30 Stream B

A qualitative study and proposed

Medical Student University of Birmingham

- are assistants' working in general practice during the Covid-19 pandemic
- description of our proposed conceptual model for health system resilience
- discussion of use of model to reimagine general practice post-pandemic, to better support staff

Time to Heal: moral injury and moral repair in healthcare staff 14.40

Alison O'Connor

Psychotherapist and Senior Lecturer University of South Wales

- sharing methodology of a 3-day retreat for health professionals impacted by moral injury, based on findings from Winston Churchill Travel Fellowships
- reporting initial findings and qualitative feedback from participants
- recommendations for further research and practice in the use of "alternative" approaches to address spiritual healing and moral repair

Day 1 - 11.30 - 13.00 Stream C The epidemiology of distress

Chair

Dr Alka Patel Founder, Lifestyle First and Lifestyle Medicine Physician, Coach, GP

11.30 A 'staff-centred' approach to service redesign in the face of a Pandemic

Dr Samuel Ghani

Consultant in Emergency Medicine Whipps Cross University Hospital, Barts Health NHS Trust

- establishment of a Respiratory Assessment Unit in ED to cohort all potential Covid-19 walk-in patients and provide initial management and clinical risk stratification for improved patient outcomes, department flow and infection control
- improved Clinician confidence to deliver safe and effective care in a protected area during Peak 1 of the Covid-19 pandemic
- positive outcome for patients & improved staff wellbeing during the pandemic

11.50 Moral distress in safeguarding staff

Fiona Finlay

Consultant Community Paediatrician BSW (BaNES, Swindon and Wiltshire) CCG

- defining moral distress and moral injury
- · literature review and survey of moral distress in safeguarding staff
- proposals to reduce the impact of moral distress

12.10 Supporting the mental health and wellbeing of staff during the pandemic and beyond

Fiona Blair

Head of Service (CONTACT) Imperial College Healthcare NHS Trust

with Dr Anne Kinderlerer

Consultant in Rheumatology and Acute Medicine Imperial College Healthcare Trust

- an in-house counselling service providing creative and effective responses to support staff during the time course of the pandemic
- a proactive and flexible approach enabled us reach and provide meaningful support to large numbers and diverse range of staff and groups with differing needs at different times
- developing and providing specific approaches, such as Emotional Wellbeing Groups and Psychological Support Sessions – we were effective in identifying staff at greatest need

12.30 Questions and Discussion

Day 1 - 14.00 - 15.30 Stream C Innovative Treatment Models and Responses

Chair

Lucy Warner Chief Executive NHS Practitioner Health Programme

14.00 The Coronacoaster – a staff Covid Recovery Programme using Interactive Self-help Videos

Dr Amie Smith

Clinical Psychologist South Tees NHS Foundation Trust

- background of development of the Coronacoaster video series
- present literature on psychological models of change and recovery
- detail the implementation of this self-help programme in our acute Hospitals Trust

14.20 The 3P Programme: an EMDR based intervention for staff recovery from Covid-19

Dr Amie Smith *Clinical Psychologist* South Tees NHS Foundation Trust

- introduction to the 3P (Pause, Process, Prevent) Programme
- how 3P has been implemented in an acute NHS Trust
- outcomes and the effectiveness of 3P

14.40	"Very warm, supportive, and full of energy, even over Zoom" Rapid virtualisation of the GP-S coaching nation		
	Dr Sarah Hamlyn	 share findings 	

Salaried GP and Internal Clinical Lead for GP-S

Dr Catherine Cowley

GP Partner and External Clinical Lead and Training Lead for GP-S GP-S Support Limited

- share findings and feedback from coaching and rapid access support delivered to GPs during the pandemic
- overview of the response in shifting to virtual coaching and training
- explore future developments in delivering virtual coaching and training to primary health care professionals

Day 1 - 11.30 - 13.00 Stream D Addiction

Chair

Dr Roopa Gill GP and Clinical Lead, NHS Practitioner Health

11.30 Addiction in Medicine; are we ready for the next epidemic?

Dr Margaret O'Rourke

Director of SAFEMED, School of Medicine University College Cork

- review the neuroscience of addiction
- explore the current culture of medicine, the stresses and pressures facing medical professionals and how these can leave them vulnerable to addiction
- discuss barriers to care and how these may be overcome
- examine our current response to addiction and mental health disorders in medical professionals
- discuss the impact of unwell medical professionals on health care quality and delivery

11.50 Comparing midwives' problematic substance use both before and 1-year following the first Covid-19 lockdown in the United Kingdom

Dr Sally Pezaro

Research Associate, Lecturer, Coventry University; Panellist, the Nursing and Midwifery Council (NMC); and Fellow, the Royal College of Midwives (RCM)

- summary of the comparison of data collected on midwives' problematic substance use (PSU) before and after the Covid-19 lockdowns in the UK
- summary of the rates and experiences of 623 midwives in relation to their problematic use of a range of substances
- explore midwives' help seeking behaviours, perceptions of impairment, associated health risks, leaving intentions and level of work engagement in the context of PSU

12.10 The Dentists' Health Support trust (DHST) (January 2008-December 2019): Review of a telephone support service for dentists

Dr Jane Marshall

Consultant Psychiatrist in the Addictions, South London and Maudsley NHS Foundation Trust; Consultant Psychiatrist NHS Practitioner Health and Clinic Advisor, the Dentists Health Support Trust

- dentists will use a self-referral telephone service to seek help for mental health and addiction problems
- this peer support model, offered by the Dental Health Support Trust, provides early intervention and excellent outcomes
- the service is cost effective and promotes patient safety

12.30 Questions and Discussion

Day 1 - 14.00 - 15.30 Stream D Neurodiversity

Chair

Dr Sue Elton Clinician and Clinical Lead Yorkshire and Humber Practitioner Health

14.00	Autistic Doctors: masking is exhausting but stigma	can prevent disclosure
	Mary Doherty <i>Consultant Anaesthetist</i> Our Lady's Hospital, Navan, Ireland	 this session provides insights from autistic doctors whilst Covid-19 was challenging for all, autistic doctors face autism-specific challenges; they are particularly vulnerable to mental ill-health. The exhaustion of camouflaging autistic traits coupled with confronting outdated prejudices on what it means to be autistic frequently prevents disclosure, which could benefit both autistic and non-autistic doctors here we examine these topics with practical advice and insights
14.20	Relaying of Learning in Autism and Intellectual Disa Learning from the pandemic through harnessing in	
	Alastair Barrowcliff Consultant Clinical Psychologist, Mersey Care NHS Foundation Trust	 learning from the pandemic and sustaining positive learning sharing learning from experiences in Learning Disability and Autism Services

• service adaptation, development and growth maximising potential

And Liz Price-Jones Consultant Clinical Psychologist

Greater Manchester Mental Health NHS Foundation Trust

14.40 "Well ... That explains a lot"

Dr Sue Elton

Clinician and Clinical Lead Yorkshire and Humber Practitioner Health The Yorkshire and Humber experience of identifying and diagnosing Clinicians post training with ND

need for greater teaching about Neurodevelopmental disorders in Medicine

• why ND patients may be one group that struggled more with lockdowns

Day 1 - 11.30 - 13.00 Stream E Reflective Practice

	Chair	
	Dr Sally Smith GP and Integrative Therapist, NHS Practitioner Health	
11.30	Meditation-based interventions in the workplace	
	Louise Fitzgerald General Practitioner Sutton Cross Surgery Dublin, Ireland	 We will discuss the current literature on meditation based programmes (MBPs) including: potential for positive effects across professions on both psychosocial workplace health and work performance the large variability across MBPs literature and the associated difficulties to evaluate their efficacy the suitability of these interventions within the workplace domain
11.50	Wounded Healers and the Psychic Guardian: When D	octors Fail Themselves and their Patients
	Dr Alfred Garwood PHP Clinician, Group Analyst PHP	 adverse life events and psychic compartmentalisation life and professional events which may awaken the encapsulated events therapeutic methods of healing these wounds & strengthening the psyche
12.10	Why and how to be vulnerable?	
	Dr Avgoustina Almyroudi ST8 in Medical Psychotherapy and General Adult Psychiatry Tavistock and Portman NHS Foundation Trust	 explore the notion of the clinician's vulnerability understand the potential benefits and challenges for the clinician and the patient, using clinical vignettes explore the place of vulnerability in the current healthcare setting that seems to be promoting exclusively resilience and consider the links between resilience and vulnerability
12.30	Questions and Discussion	

Day 1 - 14.00 - 15.30 Stream E Impact of Covid-19 on Care Workers

Chair

Dr Jenny Holmes Clinical Lead North West England, NHS Practitioner Health

14.00	The impact of Covid-19 on the dementia workforce: lessons for social care		
	Andrea Capstick Associate Professor, Centre for Applied Dementia Studies University of Bradford	 government requirements on Covid-19 for care homes were hard to put in place with people living with dementia the government often did not seem to understand the specific needs of people living with this condition we now urgently need ways of responding to the impact of Covid-19 on the mental health and well-being of the dementia care workforce 	

14.20 The impact of Covid-19 on Cumbria's care home sector

David Storm

Associate Director Cumbria, Northumberland, Tyne & Wear NHS Foundation Trust

- how the service proactively recognised vulnerability and potential impact of restrictions on people living with dementia
- innovative approaches to supporting psychological needs of staff
- communication and creative approaches to support the impact of Covid-19 in care homes

14.40 Improving resilience during Covid-19 through mind-body practices

Gee Gahir

Naturopath, functional movement specialist, Health & Lifestyle Coach

Havering North PCN non-clinical Wellbeing Service Long-Covid Non-Clinical Audit Lead; and CVD / NDA QI LTC Proactive Care UCLP Project Lead, Havering North PCN

- the impact of Covid-19 on the wellbeing of key-support workers continues to place a huge demand upon healthcare service
- Holistic Mind-body interventions adapted as healthy lifestyle models of care delivered throughout the pandemic have demonstrated improved perceived stress scores and resilience
- you are invited to experience three effective techniques in a practical immersion which have been fundamental for recalibrating the stress response and restoring wellbeing

11.30 Learning from doctors with Long Covid

Dr Sue Warren

GP locum Practitioner Health, Appraiser, Wessex LMC, suewarrenmedicals, PSU Case Manager

and Dr Sarah Burns Portfolio GP, Hampshire

GP, HEE (Wessex) GP Fellow, University of Southampton Senior Teaching Fellow

- doctors find it difficult to become patients and this can create barriers in both seeking and accepting support
- learning from doctors with long Covid can help inform how we support doctors with other health problems
- peer support and non-medical interventions can be important tools in recovery

Day 1 - 14.00 - 15.30 Workshop Supporting the health of health workers through video

14.00 Supporting the health of health workers through video: an interactive workshop Dr Béatrice Guyard-Boileau • describe the methodology of a coope

Senior Obstetrician, Director of the Video Project « Tutotour »

and Sebastien Fleury

Head Midwife Toulouse University Hospital, France

- describe the methodology of a cooperative video project, and provide insights for conducting such projects
- present a set of short videos to support health professionals
- conduct an interactive session based on the videos, and share examples of how they can be used

Day 2 - 08.00 - 09.00 Optional Pre Conference Experiential Learning Resources Showcase & GMC Breakfast Meeting

08.00	Option A - Reducing the mental health impact	of complaints and referrals to the GMC
	Michael Keegan Senior Case Examiner General Medical Council and Helen Gately Head of Provisional Enquiries and Liaison Triage General Medical Council	 concerns about doctors' health are referred to the GMC by employers, patients, treating clinicians and themselves not all warrant a fitness to practise investigation. And those that do are potentially at risk of harm, as well as a risk to patients we will explore the way in which concerns about a doctor's health are investigated, how they're supported, what has changed in recent years and plans for the future
08.00	Option B - The disruption-unity gap	
	Karina Hulstrom Executive Coach and Company Director Unlimited Potential	 the positive and negative role of disruption in NHS teams, throughout the Covid-19 pandemic the importance of a positive disruption-unity balance a new way of looking at teams and leadership to boost resilience and success – using disruption as a key tool
08.00	Option C - A movement and meditation experi	ience on the four stages of small joys and connectivity
	Dr Anna Dias <i>GP trainer and Family Therapist</i> Churchview Surgery, Plymouth	 how to notice the small things that bring you joy as an individual how to share those joys with your colleagues and encourage them to share ideas with you and each other by doing this sharing begin to see how the connections between people grow and encourage these by building the team to nurture them

Day 2 - 11.30 - 13.00 Workshop Supporting trainees with examination anxiety

11.30 Supporting trainees with examination anxiety

Richard Jones
Clinical Director
NHS PH

- helps trainees & learners identify how exam anxiety is triggered and develops
- $\ensuremath{\,\bullet\,}$ understand how their current thinking, and behaving patterns are worsening
- their anxiety and help to 'correct' unhelpful thinking and behavioural patterns • develop new, more helpful thinking and behavioural response to their anxiety
- triggers, in a new healthier formulation

Day 2 - 14.00 - 15.30 Workshop Mindfulness

14.00 Mindfulness - Healing from within

Dr Wendy Molefi

GP, Mindfulness Teacher, Wellbeing Coach The Mindful GP

- this experiential workshop is an exploration of mindfulness as a resource to support and sustain our wellbeing
- mindfulness practice gives us stability in the eye of the storm; it gives us wisdom to respond with choice; and it teaches us kindness and self-compassion even when the environment around us is not conducive
- the workshop will also include feedback and insights from an MBCT course for healthcare professionals

Day 2 - 11.30 - 13.00 Stream A Mental health outcomes for distressed doctors

Day 2 - 11.30 - 13.00 Stream B **Techniques for Keeping Well**

Chair

Dr Deborah Brooke Group Facilitator, NHS Practitioner Health

11.30 A novel approach to support wellbeing amongst junior doctors in oncology

Dr Liam Cain F3 in Medical Oncology

And Dr Kiuthikah Thillai Consultant Medical Oncologist, Mind and Body Lead in the Guys Cancer Academy Guy's and St Thomas' NHS Foundation Trust

- we present data from a pilot study aimed to improve wellbeing in junior medical staff in oncology
- we will discuss how reflective practice can be a trained accredited skill
- we propose that staff should be provided with protective time and space to debrief together

11.50 Wellbeing webinars for Junior Doctors – developing a series to foster confidence and self-awareness to improve wellbeing

Rhiannon Ions

Fellow in Junior Doctor Wellbeing & Support/Anaesthetic CT2b Higher Education England South West/Musgrove Park Hospital with Tailte Breffni

Professional Support & Wellbeing Manager Peninsula and Severn Professional Support & Wellbeing Unit

- the need for wellbeing support for junior doctors why their wellbeing is at risk and the impacts that this has
- · establishing a series of wellbeing workshops to improve resilience - underpinned by psychological self development concepts including coaching, positive & occupational psychology theories and exercises
- positive feedback and challenges encountered, improvements and going forward including spread and sustainability

Interpersonal Therapy (IPT) Techniques for Keeping Well 12.10

Dr Richard Duggins

Consultant Psychiatrist in Medical Psychotherapy CNTW / NHS Practitioner Health

- IPT (Interpersonal Psychotherapy) is a NICE-recommended therapy for depression
- IPT techniques can be helpful in keeping well, and in managing stress and burnout
- key techniques include understanding the problem, activating an interpersonal network, identifying a focus and goals, tolerating emotions, clear communication and effective decision making

12.30 Questions and Discussion

Day 2 - 14.00 - 15.30 Stream B **Organisational Health**

Chair

Dr Kate Milne GP Clinician NHS Practitioner Health

14.00	Should I stay or should I go? Investigating psychiatry trainees' work environment, wellbeing and intentions to leave their training		
	Milou Silkens Research Fellow University College London	 psychiatry trainees leaving their training is a major problem in psychiatry training. Burnout contributes to this resources and strategies can improve trainees' wellbeing and resilience, which makes them less likely to leave their training those designing and delivering psychiatry training could improve trainees' wellbeing and retention by offering more of the resources identified in this research to offset the heavy demands of training 	

14.20 Medical leadership and organisational strategies to promote well-being and reduce burnout **Dr Margaret O'Rourke**

Director of SAFEMED, School of Medicine University College Cork

- review how unmanaged stress has serious consequences for patients, doctors and health care organizations
- examine burnout prevention and the systems approach
- explore medical leadership and its link to burnout rates
- · discuss cost neutral strategies to optimize doctor health and well being

14.40 Introducing Me and My Team a framework for compassionate leadership, psychological safety and strengthening connections within teams

Emma Lishman

Clinical Psychologist Staff Wellbeing Psychology Team, North Bristol NHS Trust

- sharing a framework to support the psychological wellbeing of teams
- practical steps to foster compassionate leadership, psychological safety and strengthen connections within teams
- · outlining how resilience is more helpfully seen as existing through strong connections between us, not just within individuals

Day 2 - 11.30 - 13.00 Stream C Team Dynamics and Team Support

	Chair Dr Jan Birtle Clinician NHS Practitioner Health		
11.30	"Heroes work here!" – Photographic testimonies from staff working in care homes during the Covid-19 pandemic		
	Ana Barbosa Assistant Professor University of Bradford	 describe the CoDeC study and provide insight for conducting action research with care home staff share the results from a photo diary maintained by care home staff during the Covid-19 discuss how to best support the care home workforce in the aftermath of the pandemic 	
11.50	PH Peer Support pilot run in response to Covid-19		
	Dr Claire Gallagher GP and Dr Kate Mtandabari GP NHS Practitioner Health	 this scheme created a one-to-one space for health professionals to "think aloud" with an experienced colleague, to consider professional and personal dilemmas during the Covid-19 Pandemic good quality training, supervision and safety netting gave the peer supporters the confidence to work effectively with those receiving peer support who highly valued the scheme careful planning, infra-structural support, leadership buy-in and considered evaluation were key. We will share lessons learnt 	
12.10	StartWell>EndWell - A practical framework for fostering team connection, compassion, and effectiveness		
	within healthcare teams Dr Olivia Donnelly	 the science behind psychological safety and "teaming" – and why healthy 	
	Consultant Clinical Psychologist & Lead for Staff Wellbeing Psychology Team, North Bristol NHS Trust	 team cultures are so important for patient care and staff wellbeing during Covid-19 and beyond an overview of the Start Well > End Well approach – A practical framework for fostering team connection, compassion, and effectiveness – what this is, how to put this into practice in the 'real NHD world', how it can make a difference case studies on the impact that Start Well > End Well has had within North Bristol and Nationally 	

12.30 Questions and Discussion

Day 2 - 14.00 - 15.30 Stream C Wellbeing at Work

Dr Caroline Walker Doctors' Wellbeing Specialist, NHS Practitioner Health; Clinician and Founder The Joyful Doctor

14.00 Promoting wellbeing and resilience as essential professional skills by embedding within the undergraduate pharmacy curriculum

Dr Nicola Ward

Senior Lecturer in Clinical Pharmacy and Pharmacy Practice De Montfort University, Leicester

- an overview of our wellbeing and support programme for MPharm students to help manage anxiety and stress and prepare them for professional practice
- an outline of how workshops were designed to address stressors identified by students and embedded within the curriculum
- how utilising a balanced social-individualised approach has reduced some of the stigma and barriers to students accessing support

14.20 Joy at Work

Susie Gabbie

Paediatric Consultant Royal Free Hospital, London

- our observations that teams who bond together outside work enjoy closer professional relationships, which in turn enhances patient care and safety
- wellness activities create joy at work, preventing burnout and stress
- we offer ideas to develop Joy at Work and support each other through the Covid-19 pandemic and beyond

14.40 Innovative quality improvement collaborative approach to improve the wellbeing of staff and their enjoyment of work

Rosanna Bevan

Quality Improvement Coach, Royal College of Psychiatrists with Sian Rogers Patient Education and Health Coaching Lead London Spinal Cord Injury Centre

- how can quality improvement support us with us with improving staff wellbeing and staff experience at work?
- learnings from the national improvement programme on Enjoying Work, run by the RCPsych
- key insights & change ideas that you can apply in your team and organisation

Chair

Day 2 - 11.30 - 13.00 Stream D Supporting medical students

Chair

Dr Nic Anfilogoff NHS GP, GP Appraiser and Educator, Case Manager NHS Practitioner Health

11.30 How can medical school affect the mental health of medical students?

Dr Antonia Rich

Associate Professor University College London

- twenty medical students participated in interviews discussing their experiences of mental health at medical school, sources of support and experiences of help-seeking
- medical school exacerbated mental health problems, with high workloads, high expectations, and a competitive culture where they are expected to be tough
- fears about a mental health related diagnosis affecting their future career meant some students were scared to seek help

11.50 Supporting the Mental Health of Medical Students through Covid-19; what can we learn?

Naomi Marfell

Service Manager HHP Wales Health for Health Professionals (HHP) Wales

- following the Covid-19 outbreak HHP Wales observed a significant number of medical students self-referring for mental health support
- very few of the presenting medical students had been exposed to clinical environments involving the care of Covid-19 patients
- the delivery of an individually tailored approach has been effective in supporting the mental health of medical students

12.10 Medical School Strategies to address student wellbeing and resilience

Dr Carol Tunney and Dr Margaret O'Rourke Director of SAFEMED, School of Medicine University College Cork

- explore medical student stress as a cause for concern
- explore contextual issues and the student voice
- discuss the evidence and experience of what works for reducing medical student stress
- present the top three strategies for supporting medical students and reducing stress

12.30 Questions and Discussion

Day 2 - 14.00 - 15.30 Stream D Nightmare on Complaints Street

Chair

Dr Jane Marshall Consultant Psychiatrist, NHS Practitioner Health

14.00	Developing a healthier way of responding to mistake	s
	Richard Jones Clinical Director NHS Practitioner Health	 developing a healthier way of responding to mistakes (or the threat of mistakes) exploring ways that our avoidance of mistakes can sometimes make them more likely to occur applying CBT principles to mistake making
14.20	A nightmare on complaint street – a navigation guide	e based on lived experience
	Dr Mohammed Abu-Asi Patient Participation Group Lead NHS Practitioner Health	 to recognise the impact of a clinician facing a complaint or investigation on the individual, the team, patients, family & friends to identify how to support individuals and colleagues through a challenging time in their professional lives to understand how a clinician can navigate through difficult times for the best positive outcomes for all
14.40	Supporting clinicians through complaints processes: UK doctors and medical students	A cross-sectional survey and focus group interviews of
	Dr Leila Ellis <i>Academic Foundation Year 2 Doctor</i> Torbay and South Devon NHS Foundation Trust	 this session will explore clinician experiences of medical complaints, recognising that involvement in a complaint process widely impacts professional and personal wellbeing our research has found that use of formal and informal sources of support is variable with demand for greater accessibility and diversification of support we will share the work being undertaken by the Medical Defence Union to improve the practical and emotional support available for clinicians
15.00	Questions and Discussion	

Day 2 - 11.30 - 13.00 Stream E Hope, resilience and happy workplaces

	nope, resilience a	nd nappy workplaces	
	Chair		
	Dr Clare Redmond Consultant Psychiatrist, NHS Practitioner He	ealth	
11.30	Understanding of wellbeing for doctors in workplace, and the importance of appropriative interventions such as effective leadership and management strategies		
	Dr Sophia Pillai SAS Lincolnshire Partnership Foundation NHS Trust	 to enable in depth understanding from through literature review of factors that affect wellbeing of doctors and role of leadership on workplace and its impact of wellbeing to identify relevant leadership and management strategies in workplace environment to provide or enable effective leadership, and engagement of doctors in the workplace 	
11.50	'Work Afterthoughts' - How we value our mater	nity staff in Lincolnshire	
	Sandra Pygott Professional Midwifery Advocate & Midwife United Lincolnshire Health Trust	 the Professional Midwifery Advocate role in restorative work in our maternity services has never been needed more than during a global pandemic, so what could we do to provide a place of psychological safety in times of stress 'Work Afterthoughts' is primarily a restorative listening service for all maternity staff to attend annually - as well as having access for one to one sessions when needed feedback and evaluation – the impact and implications for the future of the service at ULHT 	
12.10	Developing a specialist in house psychology serv	vice for doctors	
	Claire Blount Clinical Psychologist Katie Egan Psychotherapist Staff Wellbeing Psychology Team, North Bristol NHS Trust	 theory-led framework for a tailored, embedded service normalising challenges and increasing psychological safety in the medical culture the need for both proactive and responsive support for NHS doctors introducing facilitated peer supervision groups for senior doctors 	
12.30	Questions and Discussion		
		- 15.30 Stream E ve Practice	
	Chair Dr Richard Duggins Consultant Psychiatrist in Medical Psychot	herapy CNTW / NHS Practitioner Health	
14.00			
14.00	Ann Casement Professor International Association for Analytical Psychology	 Plato's pharmakon as both poison and cure underscores the notion of the wounded healer this paradox is embedded in the psychoanalytic notion of transference-countertransference the wounded healer links to empathy, which is the bedrock of a psychoanalyst's calling 	
14.20	Reflection in Action to support Workforce Ment	al Health and Wellbeing	
	Dr Andrew Tresidder SW Clinical Lead NHS Practitioner Health Chair Somerset CCG Resilience Hub	 what is Reflection? What supports Reflection? effective reflection (NOT rumination) gives us closure on our experiences, provides meaning and insight effective reflection can be supported in a number of ways, including Schwartz Rounds, Balint Groups, and the generative power of attention in 	

14.40 Service development report: an intervention for overcoming anxiety and perfectionism in doctors, by de-generalising positive self-identities in order to accept moments of failure

Nic Malcomson Integrative Psychotherapist Practitioner Health/Eudemedics

- hypothesis: Doctors' minds can form a generalised positive self-identity through their education and training, such as, I always succeed
- consequence: Single errors or failings can be associated with shame and a sense of global failure
- intervention: This might be overcome by undoing the generalisations beneath identities of invincibility and instead celebrating moments of success and accepting moments of failure, without further generalisation

Virtual Conference - Day 1 Looking back: Covid-19 and the health of health professionals

All sessions in the virtual conference will be live but also recorded for watching later, delegates will also have access to the pre-recorded poster presentations.

09.30 **Introduction & Welcome**

Dame Clare Gerada Medical Director, NHS Practitioner Health Programme

09.40 **Morning Session Chair's Introduction**

Anna Mary Soubry Trustee Doctors In Distress, Former MP, Govt Minister, Criminal barrister, TV presenter & reporter

09.45 **Government Update**

Professor Chris Whitty

Chief Medical Officer, Department of Health & Social Care

09.55 Speaking Pandemic Truth to Power

Dr Rachel Clarke

Palliative Care Doctor and Author

- the human need to give voice to what we witness and, crucially, for this to be heard
- the cost to healthcare practitioners of their lived experiences of pandemic medicine being minimised, dismissed, or ignored
- the therapeutic benefits of sharing our own stories with others, to help us come to terms with the burdens and trauma of caring for patients in pandemic conditions

10.15 Nurse Government Update

Ruth May

Chief Nursing Officer for England

Panel Session: What could we do differently in future? 10.35

10.50 Questions and Answers

11.10 Comfort Break

11.30 Stream A: International treatment models & responses

Chair

Dr Kate MT (Mtandabari) Clinician, NHS Practitioner Health

Transforming Health for Health Professionals Wales; from "just doctors" to supporting the entire 11.30 **NHS Wales workforce**

Dr Thomas Kitchen Deputy Director HHP Wales Health for Health Professionals (HHP) Wales

- responding to Covid-19, Health for Health Professionals Wales expand its services to offer confidential mental health and wellbeing support to all staff employed by NHS Wales
- in the year since expansion 770 individuals accessed the service, of which 36% were Doctors. 75% of staff were signposted to virtual CBT. A measured reduction in GAD-7, PHQ-9 and WSAS scores has been demonstrated
- delivery of a free, rapidly accessible, confidential and individually tailored approach has been effective in supporting the mental health of the NHS workforce in Wales

11.50 Monitoring the effects on mental health of doctors in Spain along the pandemics to improve the Galatea Foundation portfolio of services • monitoring the effects on mental health of healthcare professionals along Anna Mitjans the pandemics: second questionnaire September 2021 Project Manager Galatea Foundation and Barcelona Medical Council • new questions about vaccination, team working, PTS, new Covid-19 strains · results of the second questionnaire will be used to offer better treatments

and support (individual and collective), as well as to advise policy makers to fulfil doctors' needs in the pandemic environment

Caring programmes across Europe and the regulatory role in impaired physicians 12.10 Dr Gustavo Tolchinsky

Secretary, the Barcelona Medical Council; and Coordinator, PAIMM (Catalan Caring Programme for Physicians)

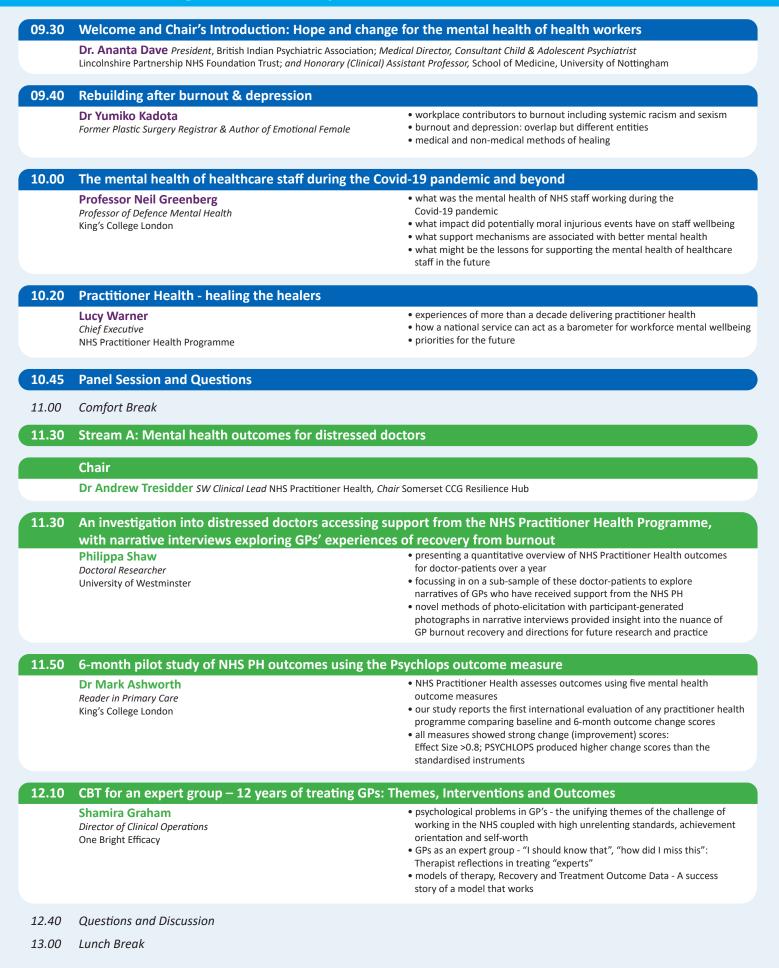

- what is the current situation of caring programmes across Europe
- what are the different models offering : pros and cons
- · what does an impaired physician need in terms of caring programme and in terms of regulation

12.30 Questions and Discussion

Virtual Conference - Day 1 continued Looking back: Covid-19 and the health of health professionals

1.30	Stream A: Epidemiology of distress			
	Chair			
	Dr Eleanor Cole Lead Clinician – Psychiatrist, NHS Practitioner Health			
.4.00	Psychiatrists harnessing lived experiences			
	Simona Karbouniaris Researcher and Lecturer, Utrecht University of Applied Sciences Amsterdam Medical Centre and Antoinet Oostindiër Psychiatrist and Director, AerreA	 mental health professionals with lived experiences coming out MH professionals trained to harness experiential knowledge examples (how to): peer consultation, training, culture/climate change 		
L 4.20	Factors affecting the UK junior doctor workforce retention crisis: an integrative review			
	Dr Florence Lock <i>Public Health Registrar</i> South West Public Health Training Programme and University of Exeter	 background information on junior doctor retention issues and research to date overview of methods for integrative review and strengths and limitations of research summary of findings and recommendations for solutions based on findings 		
14.40	Medical students' mental health: Prevalence, help-se	eking & support before & during the Covid-19 pandemi		
	Asta Medisauskaite Senior Research Fellow University College London	 this presentation will discuss changes in medical students' mental health, support and help-seeking from before the pandemic to during the prevalence of mental health issues was high before the pandemic and has remained high since students were less likely to seek help for their mental health during the pandemic compared to before, but those who did were equally satisfied with the help provided 		
15.00	Questions and Discussion			
15.30	Comfort Break			
16.00	Chair's Introduction - Closing Session theme: Distress in healers and coping with distress			
	Dr Cat Chatfield Head of Education and Co-Lead for Wellbeing, The BN	LV L		
16.05	"My fatal mistake" Guilt, blame and the role of the clinician in the death of a patient by suicide			
	Dr Rachel Gibbons <i>Consultant Psychiatrist, Chair,</i> Patient Safety Group Royal College of Psychiatrists, <i>Psychoanalyst, Group Analyst</i>	 the nature or aetiology of suicide the 'Truth' about suicide. What leads someone to take their own life? Can it be prevented? understanding the profound effect the suicide of a patient on the clinician working with them

Virtual Conference - Day 2 Looking forward: Hope and Resilience after Covid-19

Virtual Conference - Day 2 continued Looking forward: Hope and Resilience after Covid-19

14.00 Stream A: Happy Workplaces for Trainees

Chair

Dr Jill Wilson GP, Training Programme Director, Somerset GPVTS and Clinician, NHS Practitioner Health

14.00	.4.00 The Relationship Between Work-Related Social Support and Wellbeing in Junior Doctors working in t United Kingdom's National Health Service: A Systematic Review	
	Dr Jessica Hilton <i>Clinical Psychologist</i> Oxford Health NHS Foundation Trust	 reports the findings of a new, qualitative systematic review exploring the role of work-related social support on the wellbeing of NHS junior doctors presents the thematic synthesis in detail, including the relevance, experience, barriers, facilitators, and impact of work-related social support discusses the theoretical and organisational implications regarding

work-related social support for junior doctors in the NHS

14.20	20 Survive and Thrive – an innovative experiential programme for enhancing trainee wellbeing		
	Dr Sara McDouall Anaesthetic Department Royal Berkshire Hospital NHS Foundation Trust	 the NHS workforce is increasingly challenged to provide optimum healthcare while maintaining mental and emotional wellbeing every practitioner has unique strengths and vulnerabilities. Identifying and exploring these can lead to a better understanding of how we respond 	

to challenges
peer group experiential workshops, run by professionals, are an effective way of understanding and caring for ourselves and our patients in times of adversity

14.40 YOU ARE NOT ALONE: An opportunity to share how the London School of Paediatrics SURVIVES & THRIVES through Training

Dr Nisha Patel

Paediatric Registrar - ST5, Trainees' Committee Chair, London School of Paediatrics

- The London School of Paediatrics Trainees' Committee have a dedicated trainee-led Surviving & Thriving team; aiming to safeguard trainee wellbeing
- SURVIVE: We created empowering toolkits to support everyone during training and the pandemic; 'The Covid-19 Handbook' & 'Wellbeing Resource Pack'
- THRIVE: We organise annual Surviving &Thriving days encouraging trainees to rejoice in excellence and aspire to inspire through positivity initiatives, which have spread to trusts throughout the deanery

15.00 Questions and Discussion

15.30 Comfort Break

16.00 Chair's Introduction: Consensus Statement

Dame Clare Gerada Medical Director, NHS Practitioner Health Programme

16.10 Heroes need help too: Post-Covid lessons for Medical Education

Professor Subodh Dave

Dean, Royal College of Psychiatrists; *Consultant Psychiatrist and Deputy Director of Undergraduate Medical Education*, Derbyshire Healthcare Foundation Trust; and *Professor of Psychiatry*, University of Bolton

- stress, burnout and mental illness are a common occupational hazard in medical practice
- while occupational safety standards are routine in most industries, medical education has largely ignored this in formal training and assessment
- apart from resilience training, medical curricula need to focus on improving systems literacy, assertiveness training and better understanding of the role of primary prevention in maintaining health and well-being

16.30 This is Going to Hurt

Dr Adam Kay

Writer, Comedian & Former Junior Doctor

16.50 Closing Remarks, followed by Close at 17.00
