10TH ANNUAL CONFERENCE

Nurse Clinics 2018

only
£195
+VAT

Monday 19 November 2018 De Vere W1 Conference Centre, London

“Nurse-led services offer the opportunity to strengthen and enhance the experience of care across health and social care.” Dr Theresa Shaw, Chief Executive, Foundation of Nursing

Chaired by Dr Richard Hatchett Author Nurse Led Clinic: Practice Issues Nurse Clinics 2018 will provide specialist nurses with a valuable opportunity to hear national updates and best practice for working at advanced practice, and setting up and running nurse led clinics and services in primary, secondary and community care across a number of specialties. With sessions designed for those who are looking to improve the effectiveness or expand existing nurse led clinics and services, or for beginners looking to set up their first clinic this event is essential for all nurses offering nurse led clinics and services.

“A lot of out-of-hospital health and social care services are nurse-led and delivered and I see a great opportunity for NICE to be developing guidelines that, not only support nurses in leading and delivering those services, but also enable the public to understand what they can expect from services to stay well,” Elaine Inglesby-Burke, Executive Nurse Director and Deputy Chief Executive, Salford Royal NHS Foundation Trust & Non Executive Director, NICE

The opening address will look at evidence for nurse led clinics and services, and developing advanced practice and demonstrating improvement and quality within Nurse Led Services. The conference will continue and look at how to demonstrate the value of your clinic or service, and how to continuously measure, monitor and benchmark the impact on patient experience and outcomes, in line with the drive for quality improvement in the NHS.

Nurse Clinics in Practicen will include short sessions presenting examples of how various established nurse led clinics work in practice, the practicalities and the challenges, and to give delegates an opportunity to meet and network with people running similar clinics to their own interests.

The conference will include a choice of interactive expertly facilitated workshops focusing on

- A Beginners Guide to setting up Nurse Led Clinics
- Nurse Led Follow up Clinics
- Nurse Prescribing
- Leadership of Nurse Led Clinics: developing the culture and leading your clinic
- Legal Issues and Risk Management

Follow the conference on Twitter #NurseClinics18

JOINT OPENING SESSION

10.00 Chair's welcome and introduction: the value of nurse led clinics

Dr Richard Hatchett

Author

'Nurse Led Clinic: Practice Issues'

- existing evidence to support the value of nurse led clinics
